Club Sports Insurance Policy

Who is covered?

When participating in a Club Sport at Georgia State University, each participant is covered by the Club Sport Insurance Policy. An enrolled student athlete is covered during practice sessions and competition.

Type of Coverage

This policy provides excess coverage. This means it pays second if you are covered under a primary health plan. If you have another health plan, that plan would pay its benefits first. This plan pays any medical expenses not previously paid by the primary insurance plan. If you do not have any other health insurance, this plan will pay as the primary plan.

How to Complete the Form

The claim form will be provided by the recreation department, and should be completed on both sides and signed by you, the Club Sport participant. You will need to submit itemized bills from each provider that treats you. An itemized bill is form HC1500 (from doctors) or UB-92 (hospital) and it has a diagnosis and procedure(s) listed. If you have primary insurance coverage that pays first, you will need to also send the Explanation of Benefits (EOB’s) which show what the other insurance company paid.

Where should the forms be sent?

This claim form should be completed and returned to the insurance company as soon as possible.

Important:

DO NOT hold the claim form until you receive the bills and EOB’s from the doctors and insurance company. Submit this claim form immediately.
